PRIMETERMINAL MOBILE

Keep in touch with financial markets on the go

CONTACT US ⓘ

PrimeTerminal Mobile provides financial professionals with mobile access to financial market data, news and analytics, as well as their personal portfolios and watch lists. The application, available for Android and iOS smartphones, serves as a mobile companion for users of PrimeTerminal.

It enables users to easily access the desktop's broad data universe and key features. With its dynamic, free-text search functionality and powerful charting capabilities, PrimeTerminal Mobile helps retrieve and display relevant information quickly and easily.

Push notification alerts allow users to stay updated on market movements at any time. They can also monitor the performance of individual positions or an entire portfolio through personal watchlists.

CUSTOMIZED USAGE

PrimeTerminal Mobile enables users to access the desktop's broad range of financial market information in real-time or delayed.

Desktop and mobile applications are seamlessly synched, ensuring that exchange fees apply only once by permitting access via one device at a time.
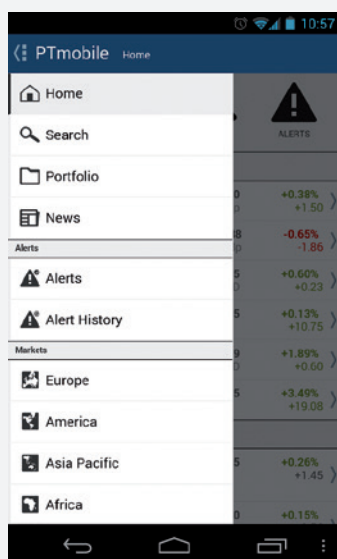

Through the individual permissioning of data and functionality, costs can be allocated on a per user basis, which facilitates flexible and focused use of PrimeTerminal.

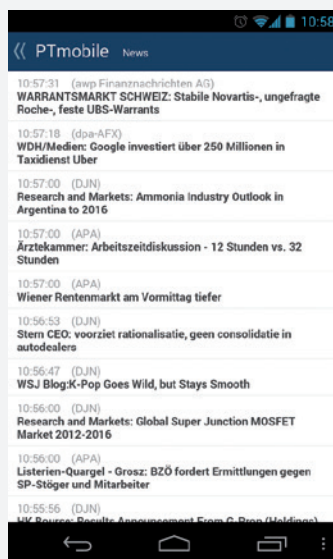

PrimeTerminal Mobile is available from Apple's App Store and Google's Play Store
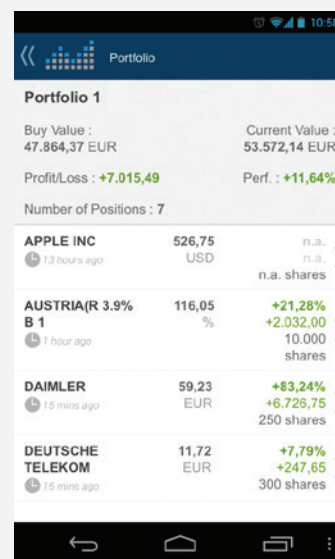

KEY FEATURES

- **Market Overview:** access to key indices, futures, cross rates, central bank rates, precious metals and energy for all major markets
- **My List/Portfolio:** Watchlist items can be reviewed in real-time, portfolio positions and P&L on an end-of-day basis. Instruments can be added to the mobile watchlist and reviewed on the desktop application
- **Searching:** fault-tolerant contextual search across various asset classes
- **Alerting:** keeps users abreast of intraday market movements, enabling them to make instant investment decisions
- **Quotes:** global real time data is available in full quote displays for individual asset classes, comprehensive but optimized to show key real-time analytics and fundamental data
- **News:** associated news for each individual instrument can be instantly retrieved
- **Charts:** available from intraday to five year history
