Join us

Technion BioMotion Lab

We are hiring- Avialable Graduate Student/Researcher position

Exciting research in the field of motion science- join us and study how humans move

We develop applicative and novel tools for biomechanics, wearable sensor technologies, machine learning and biochemical markers applied to orthopedic injuries and athletes' performance.

Requirements:

- Motion analysis (gait lab)
- Biomechanics musculoskeletal modeling
- wearable sensor technologies
- biomedical imaging
- computer vision/ machine learning
- robotics and control
