A Note from Ted

I founded Savannah Bee Company out of my passion for beekeeping and honey. That passion carries through every product I sell.

After more than 30 years of working with bees, I'm confident my company offers some of the world's finest honey and honeybee-inspired body care products available. We carefully bottle the purest honeys.

Our Everyday Honey line instructs customers how to use each particular honey - Honey for Grill, Honey for Tea, and Honey for Cheese. All of our honeys are hand-harvested at the peak of the blooming season to ensure purity. All are KSA Kosher certified and all are 100% pure honey. We make decisions about sourcing honey based on purity rather than on profit. Our honey is the best you'll ever taste.

Our body care products are all-natural, use organic ingredients and work as well or better than those on the market that are loaded with chemicals. The products feel great on your skin and are good for your body – inside and out. There is no tradeoff between our natural products and how well they feel and work.

I hope our customers enjoy using our products as much as we enjoy making them! Bees live in a manner that only contributes positively to the world around them. I see honeybees as role models for living in harmony with our environment and each other.

Bee Inspired,

Ted Dennard
President and Founder of Savannah Bee Company

Savannah Bee Company Overview

Ted Dennard founded the Savannah Bee Company in 2002 after a longtime passion with honey and bees.

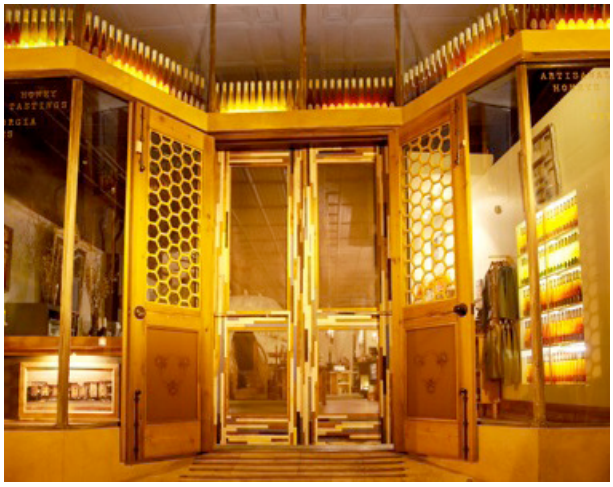

Ted was 13 when he met Roy Hightower, a beekeeper looking to place beehives on the Dennard family's 100-acre forest retreat near Brunswick, GA. At first, thousands of bees buzzing around Ted's head caused him to panic, but then old Roy twirled a frame of honeycomb in front of young Ted's eyes. The sunlight beamed through the honeycomb like stained glass. Roy cautioned, "Son, these bees can become a way of life."

Ted kept bees throughout high school and while in college at Sewanee. During Ted's years in the Peace Corps, he spent his time in Jamaica teaching beekeeping to more than 100 beekeepers. During those years and when he returned home to Georgia, Ted was constantly in the beehives and gave away all the honey he harvested.

A friend soon opened a new store in downtown Savannah and convinced him to bottle and sell his honey on her shelves. Soon, more stores called wanting to sell Ted's honey, including Dean & DeLuca. The popularity of Savannah Bee products became so overwhelming that Ted made the leap from working out of his kitchen to officially starting a company in 2002.

In the beginning, Savannah Bee Company was built upon relationships with small boutiques. In 2003, Ted made his first visit to the Fancy Food Show where Williams-Sonoma, Neiman Marcus, Crate & Barrel and others discovered Ted's Savannah Bee honey.

Savannah Bee opened its flagship store in downtown Savannah in October 2008. Savannah Bee continues to wholesale honey and honeybee-inspired body care products to thousands of stores around the nation, open additional retail stores, feature a thriving web business, and support a flourishing not-for-profit called the Bee Cause Project.

Ted and Savannah Bee Company have racked up a number of accolades. In 2007, Ted was named the Georgia Small Business Person of the Year. In 2008, Savannah Bee Company received a Gallo Family

Vineyards Gold Medal Award for Best Condiment. Savannah Bee Company has been a member of the Inc. 500/5000 List since 2009. CNN featured Savannah Bee as a "Small Business Success Story" in 2010. 2011 brought a Sofi Award Silver Finalist nomination for "Outstanding Classic." Our website has been honored with the 2014 Google's eCity Award for Georgia. In 2015, Ted received the Small Business Rock Star Award from the Georgia Department of Economic Development. Our Royal Jelly Body Butter was awarded Best New Natural Beauty and Spa Product at the 2015 Natural and Organic Products Europe in London and a Best of the East Press Award at the 2015 Natural Products Expo East.

Staying true to Savannah Bee's mission, Ted uses his expanded reach to educate more people about the wonders of the honeybee. He regularly speaks with various organizations and garden clubs, and he loves teaching kids (and adults!) about honeybees. Ted's lifelong passion for honeybees is apparent in his company, the specialty honey and the luxurious, beehive-based body care products he produces. Ted's hope is that Savannah Bee Company emulates a beehive, where his business benefits everything and everyone.

Un.Bee.lieveable Honey

Artisanal, single-varietal honey is rare and beautiful. It is carefully extracted by small-scale beekeepers and delivered in its raw form. It is not heated, treated, or blended with any other honey, and has layers of complex flavor. As soon as you taste single-flower honey, you know how special it is. The nectar from some flower blossoms and the manner in which the honey is handled produces far superior honey. At Savannah Bee, we are committed to bringing to market only the purest, highest quality single-flower honeys available.

Premium Single-Varietal Honey

Tupelo

Tupelo is the queen of the honey world and the "gold standard" by which all others are measured. Harvested each April along remote rivers in southeastern Georgia and western Florida, it is one of the rarest and most valuable honeys in the world. Tupelo has a subtle buttery texture that melts on your tongue and fills your mouth with a vanishing sweetness.

Sourwood

This distinctive, award-winning honey has an earthy, complex gingerbread flavor profile with subtle maple and spice. Produced in the southern Appalachian Mountains, it can only be produced in small batches. Sourwood has a lavender/ amber tint and has garnered multiple blue ribbons at the World Honey Show.

Orange Blossom

Made in Florida in the early spring when the citrus trees are in bloom, this honey is characterized by its candy-sweet, rich, citrus flavor followed by hints of toffee and almonds.

Wildflower

Our Wildflower Honey from coastal Georgia has a mild and subtle flavor that is dependent upon the season, weather, and flowering plants of the area. This honey is the perfect all-purpose honey and is great for sweetening beverages, glazing over veggies on the grill, or making desserts.

Sourwood Gold Reserve

Our Sourwood Honey Gold Reserve is absolutely the finest quality Sourwood Honey we have seen in over a decade! Your taste buds will be met with an orchestra of flavors ranging from maple spice to caramel to gingerbread. There is only a limited amount of this one-of-a-kind honey from the upper heights of the Southern Appalachians.

Tupelo Honey Gold Reserve

This limited edition special release Tupelo Honey was harvested with pristine environmental conditions, honeybee health and nectar flow. The 1936 Letter Press label is hand printed, numbered, and signed by our favorite beekeeper, Ted! The top seal is pure Tupelo beeswax from the same batch.

Un.Bee.lieveable Honey

International Honey | Premium Single-Varietal Honey

Rosemary

Savannah Bee Rosemary Honey is one of our most intricate and complex honey varieties. With native origins in Spain, Rosmarinus officinalis grows freely and blooms for an unusually long period of time. Its fresh, woodsy aroma and surprisingly herbaceous taste give way to a delicately soft sweetness. Pair this premium honey with robust dishes like chicken, shrimp, pork and lamb for a noticeably herbal flavor and distinct sweetness.

Lavender

Lavender Honey is among the most prized varietals of honey. We source our wild Lavender Honey from the remote mountains of southern Spain, where the bees harvest nectar from the most beautiful Lavandula stoechas luisieri every year during late spring and early summer. This premium international honey has a faint, floral aroma, and a subtle fruity finish that is more delicate than other monofloral varietals. Its light color, slightly purple hue, and gentle flavor notes make it particularly complementary in mild tea and as a sugar substitute in baking.

Acacia

An American transplant to Europe in the 1600s, this tree has made dense stands, allowing bees to make a pure, monofloral honey. Its delicate white blooms create a mild taste the Italians say has “a hint of vanilla.” Acacia honey is award-winning and highly prized throughout the world.

Un.Bee.lieveable Honey

Whipped Honey

Whipped Honey Original
Made from wildflowers in the highlands of Idaho, this exquisite Whipped Honey has a uniquely smooth and creamy texture that feels like snow melting on your tongue. It has a pure, clean taste, with just a hint of fruit and cinnamon.

Whipped Honey with Passion Fruit
Savannah Bee spins together crystallized honey and exotic passion fruit, forming a smooth and delectable Passion Fruit Honey. Stir into tea, cocktails, or other beverages for that extra boost of flavor. Spread onto warm biscuits as an alternative to jams or add to your favorite sherbet, ice cream, or icing for an irresistible flavor. Bee Creative!

Whipped Honey with Cinnamon
Savannah Bee spins together crystallized honey and aromatic cinnamon, forming a smooth and irresistibly delicious Cinnamon Honey. Stir into coffee, hot toddies, or other beverages for that extra 'Zing!' Spread onto bread for an instant "cinnamon roll" or add to your favorite recipes for its luscious flavor.

Whipped Honey with Lemon
Savannah Bee Whipped Honey with Lemon might just bee the best possible combination of sweet and sour. This honey explodes in your mouth like fresh squeezed lemonade! Whipped Honey with Lemon is a beautiful summer day poured into a jar and available anytime by the spoonful.

Un.Bee.lieveable Honey

Bee Cause Honey

Bee Cause Honey

Ted founded the Bee Cause Project in 2013 to inspire understanding, appreciation and protection of the noble honeybee. The goal of this non-profit organization is to educate students, teachers and parents by installing glass education hives in schools as well as creating a honeybee focused curriculum. The Bee Cause Project aims to install 1,000 education hives nationwide.

Un.Bee.lieveable Honey

Savannah Bee's mission is to educate the consumer about the wonderful world of honey and the honeybee. Our Everyday Honey aims to teach consumers how to integrate honey into their everyday nourishment. With a price point 20% below the premium line and packaging that demonstrates how to use the product, our hope is that consumers will explore additional ways to enjoy honey every day. This line further highlights Savannah Bee as the go-to company for innovation in the honey industry.

Everyday Honey

Honey For Tea

Honey for Tea is specially chosen to complement the delicate nature and flavor of teas. The light color and taste allow the tea's flavor to shine. This honey, combined with the aromatic steep of fine teas, creates an exceptional taste experience. Honey for Tea is equally delicious in coffee, lemonade and cocktails.

Honey For Cheese

Honey for Cheese is a special honey chosen to complement gourmet cheeses. It is especially good paired with salty cheeses, such as Manchego, and more pungent cheeses, such as tangy, creamy blue cheeses. Honey for Cheese has a spicy, tart apple taste that just goes great with cheeses.

Grill Honey

Grill Honey has a bold flavor profile to brighten the flavor of grilled foods. It has a bold, maple spice flavor with a touch of sweetness. This honey is perfect for caramelizing meats, veggies and seafood on the grill. Grill Honey also adds a distinctive flavor to marinades, vinaigrettes and sauces.

Lowcountry Honey

Charleston Honey

Bright and crisp, Charleston Honey is a robust wildflower honey from the banks of the Ashepoo River just outside of Charleston. This honey is perfect for everyday use. Try it over warm scones or drizzled into Greek yogurt!

Savannah Honey

This wildflower honey from the south coast of Georgia is traditional with a mellow, floral taste. Savannah Honey is perfect for everyday use. Sweeten everything from tea to marinades!

Palmetto Honey

Our Palmetto Honey is rich and smooth with a subtle smoky taste. This honey is the perfect sweetener for sweet tea and great for creating glazes and dressings.

Savannah Bee Company • 211 Johnny Mercer Blvd. Savannah, GA 31410 • 1-800-955-5080

Bee Beautiful

Rich in lore and myth about its beauty enhancing properties, honey has been recognized as a "golden elixir" of skin care for thousands of years. Egyptians bathed in milk and honey for its ability to heal and rejuvenate skin. Ted Dennard discovered this for himself one day as he was washing honey off his hands after working with the beehives. He noticed how clean and soft his hands felt and wondered how he could bring the beauty secrets and benefits of the hive to the market.

Today, Savannah Bee produces an entire line of body care products made from the four powerhouse ingredients found in the beehive: honey, beeswax, royal jelly and propolis. From body butters, salves and hand creams to lip balms, liquid honey hand soaps, shampoo and conditioner, every product uses only the best natural ingredients.

Honey is a gentle but highly effective cleanser, exfoliator, moisturizer and intense healing agent. It actually has hydrogen peroxide properties that cleanse your skin. It is a natural humectant, pulling moisture from the air and feeding the skin. All of Savannah Bee's beauty products are created to be creamy, not waxy. Many include healing properties and royal jelly – the age-defying super food for bees that promotes skin elasticity. We want to make beauty products that bring the healing magic from the beehive to the consumer.

At Savannah Bee, we strive to make our products as pure as possible. That's why our products contain no petroleum derivatives, parabens, talc, DEA, sodium lauryl, sodium sulfate, artificial colors, synthetic fragrances or propylene glycol. We use recyclable aluminum and glass whenever possible.

Beehive-Inspired Body Care

Honeybees provide environmentally-friendly and natural solutions to everyday needs, and so do we.

No animal testing • No parabens or preservatives • No petroleum-derived ingredients

Royal Jelly Body Butter

This top-selling, luxurious butter renews your skin while leaving it soft and supple. Royal jelly – the most precious product from the hive – is combined with honey, beeswax and propolis to form an irresistible body butter. Additional ingredients include pecan oil, cocoa butter, Shea butter, and orange peel wax—all working together to nourish, repair and moisturize your skin. You'll receive the royal treatment with these rich nutrients and delicate fragrances.

Beeswax Hand Cream

This intense hand treatment with propolis and royal jelly replenishes repairs and restores your skin. We've added softening peach oil and anti-oxidizing blueberry extract for another layer of healing. Our Beeswax Hand Cream provides a long-lasting shield from harsh elements. We recommend daily use, especially in the morning. It comes in a glass jar for your desk and bedside table, or choose our convenient tube that is great for on-the-go applications.

Beeswax Salve

Our certified organic salve nourishes dry, distressed skin with a blend of organic beeswax, vitamin E and olive oil. A little goes a long way. Savannah Bee Beeswax Salve penetrates cuticles and rough skin quickly to moisturize and condition. Our Beeswax Salve is perfect for dry and damaged skin! Try on elbows and feet for smoothing whole-body BEE-therapy.

Handmade Honey Bar Soap

Weighing in at nearly half a pound, our Handmade Honey Bar Soap will exfoliate and reinvigorate your skin for weeks and weeks. Stimulate your senses with 100% natural Savannah Bee signature scents! Choose from Lemongrass Spearmint, Wild Blackberry, Orange Blossom, or Honey Lavender!

Savannah Bee Company • 211 Johnny Mercer Blvd. Savannah, GA 31410 • 1-800-955-5080

Beehive-Inspired Body Care

Honeybees provide environmentally-friendly and natural solutions to everyday needs, and so do we.

No animal testing • No parabens or preservatives • No petroleum-derived ingredients

Liquid Honey Hand Soap

This beautiful Honey Hand Soap was created with your hands in mind. Hands are often abused with harsh soaps and sanitizers. Our honey soap is a gentle cleanser that hydrates and softens skin. Honey's natural antiseptic properties – along with other ingredients like aloe vera – repair while cleansing, reduce redness while soothing, and hydrate the skin. Bee sure to follow it with our Beeswax Hand Cream!

Honey Hair Care- Shampoo & Conditioner

Awaken your senses with beauty rituals that transcend time. Drenching your hair with honey, propolis, and royal jelly leaves your scalp healthy and your hair thick, shiny and luxuriously soft.

Honey Body Lotion

This Honey Body Lotion is a lightweight moisturizer that hydrates and softens the skin. We've included honey and beeswax as its main ingredients to help create healthier, more radiant skin. It comes in five invigorating fragrances: Lemongrass Spearmint, Wild Blackberry, Tupelo Honey, Orange Blossom and an Unscented version.

Honey Body Wash

This Honey Body Wash gently exfoliates while cleansing the skin. It uses honey and propolis to create healthier skin and royal jelly to enhance the moisturizing effect. It comes in four delightful fragrances: invigorating Lemongrass Spearmint, lightly fruity Wild Blackberry, sweet Southern Tupelo Honey, and citrus-sweet Orange Blossom.

Beehive-Inspired Body Care

Beeswax Lip Gloss

Bee Kissed with our Beeswax Lip Glosses. Cover your lips with a burst of flavor and shine while benefiting from ingredients that include beeswax, propolis, and nourishing oils. Restore and accentuate your natural beauty with three beautiful colors: sheer Sweet Nothings, striking Wild Blackberry, rosy Mint Blossom, and golden Tupelo Honey.

Beeswax Lip Tint

A sleek alternative to lipstick, we offer Beeswax Lip Tints with a hint of shimmering color and hive ingredients such as beeswax, propolis, and nourishing oils. Our sheer and subtle colors look natural on the lips because they come from 100% natural sources. Restore and enhance your natural beauty with three beautiful colors: Honey Ginger, Blackberry Shimmer, Peach Blossom Shimmer, and Tupelo Honey Shimmer.

Beeswax Lip Balms

These healing and hydrating balms include Shea and cocoa butters for ultra-luxury to smooth over your lips. They also contain royal jelly, propolis, beeswax, and honey—which pulls moisture from the air and feeds your lips, keeping them healthy. These outstanding balms come in flavors of soothing Earl Grey, invigorating Mint Julep, nourishing Tupelo Honey, tantalizing Wild Blackberry, succulent Peach, lip-smacking Sweet Tea, mouthwatering Key Lime Pie and scrumptious Salted Caramel.

Beeswax Lip Balm Tin

Bee in the mood with Savannah Bee's all-natural, gluten free Beeswax Lip Balm Tins. All three Savannah Bee Lip Balm Tin varieties contain beeswax, royal jelly, propolis, and honey. We have created the perfect blend of vital hive ingredients to help nourish, heal, and moisturize your lips. Savannah Bee Lip Balm Tins are 100% natural, free of drying petroleum products, free of dyes and preservatives, and never tested on animals. Choose from three fabulous scents: Soulful Beeswax Lip Balm (Rosemary Lavender), Hopeful Beeswax Lip Balm (Coconut Vanilla) and Cheerful Beeswax Lip Balm (Mango Citrus).

Beehive-Inspired Body Care

Propolis Throat Spray and Oral Mist

Propolis is a sophisticated substance that honeybees create by collecting resins produced by plants and combining them with enzymes and beeswax. Propolis is known for its outstanding antimicrobial properties and serves as the honeybee colony's immune system. Hippocrates, the Father of Modern Medicine, frequently used propolis in his prescriptions for mouth ulcers and other types of skin irritations.

Savannah Bee Propolis Throat Spray also includes the active ingredients Echinacea to strengthen the body's immune system and Pelargonium Root to support respiratory health. Our Propolis Throat Spray is rich in vitamins and antioxidants. In addition to promoting oral health, Savannah Bee Propolis Throat Spray has been shown to reduce the duration of cold sores.

Savannah Bee Oral Mist also includes honey and natural mint. Our Oral Mist is formulated to moisten and freshen your mouth. Although this product contains propolis, it is much less concentrated than our Propolis Throat Spray formula. The honey and mint give our Oral Mist an incredibly sweet, crisp burst of flavor!

Beeswax Heel Balm

This Beeswax Heel Balm starts smoothing skin immediately. It's the perfect treatment for intensely dry, cracked and damaged areas of the skin. Apply to elbows, heels, feet and all other sensitive dry spots. Enjoy the fresh, natural tangerine-spearmint scent.

Beehive-Inspired Body Care

Savannah Bee Soy Lotion Candles

These candles are made from a blend of beeswax and soy wax. They are gluten free, non-GMO and use 100% cotton wicks. Each 11oz jar and embossed chrome lid is housed in a signature box, with a hand-illustrated matchbook nesting drawer. The interior pattern of the matchbook drawer is designed by SCAD alum and Savannah Bee in-house graphic designer and illustrator Rachel Ackley. All five of our candles double as rich soy lotion when heated and, because they're made with only the highest quality beeswax and soy wax, they feel as great as they smell!

Tupelo Blossom: This fragrant candle is redolent with floral notes of jasmine, lavender and rose. Hints of coconut and sweet vanilla create a warm finish.

Southern Evening: Top notes of verbena and juniper berry fade into comforting hints amber and tobacco, creating a woodsy perfume.

Honey Citrus: The invigorating aroma of zesty citrus, subtle bergamot and honeysuckle create a sweet scent. Bouquets of peony, day lily and hyacinth overlay the balmy citric essence.
