Looking for a Software Development Team ?

We find the right software talent for your project

Having an app in your mind ?

We turn your idea into exceptional product

Facing a technology challenge ?

Our Dedicated consultants are on-hand to help your organization innovate and transform faster

Who We Are ?

SadelTech is a software development company that has been in the market since 2013. It started as a ground-break-ing social initiative aiming to bring young Arab academics into the Hi-Tech workforce, as well as creating an ecosystem for technology initiatives and start-ups in the Arab world. Over time, it has developed into a full-fledged company with over 20 employees.

SadelTech relies too heavily on highly-educated staff from highly ranked universities and colleges.

In the last decade, we have served dozens of clients and developed hundreds of web and mobile apps for clients worldwide utilizing cutting-edge technologies.

What Makes Us Unique ?
