<b>Description:</b>	the new ascribe vote to agenda UI is broken. there is no way to un-ascribe once its done (i can set the score to 0, but that's not good enough) also, if i edit 2 or more agendas, when i a change to one of them, it also creates a 0-score agenda-vote for the other.  The forms should be separated (1 form per agenda i can edit), and there should also be an 'unascibe' button		

### History
