- Estimated time set to 6.00

- Priority changed from Normal to High

- % Done changed from 0 to 100

- Status changed from New to Resolved

I have installed a specific VPS for Redmine, and also migrated the whole system to ChiliProject which is a fork of Redmine.

The system now also runs under Ruby Enterprise Edition, and Gems are managed by RVM.

Please check and let me know how things are running now.
